**HOW IT WORKS...**

Place a piece of paper in an envelope (with your name written on the outside), with your name and the prize you want written on it. Also place in the envelope the correct number of ribbons needed to redeem that prize. Your prize and your ribbons will be returned to you. You can save ribbons for a larger prize or use ribbons for several smaller prizes. The choice is yours, but you can only use a ribbon once. Used ribbons will be hole-punched before being returned. Prizes are available on a first-come, first-served basis. Additional prizes will be added.
